## Inserting a SIM card

Fig A

1

Fig B

4

1. Remove the battery cover by lifting from the bottom left-hand corner.  
**1 In Fig A**
2. Remove battery to access SIM & SD Memory Slots. Lift the battery from the top to remove it. **Fig B**
3. **02 SIM.**  
Inside there are 3 sizes of SIM available, Standard, Micro and Nano as marked on the SIM hold card. Any size can be used, for ease snap out the Standard size SIM

(this is the largest one). If the wrong size is snapped out you can put these all back together to make the larger Standard Sim.

4. To slide a standard sized SIM card into the SIM card holder; insert it with gold contacts facing down and the bevelled corner in the top left. **2 In Fig B**
5. If you have a Micro SIM card you can Insert it by sliding the silver cage to the left and lifting it. Then insert the card with the gold contacts facing down and close the cage before sliding it to the right. **3 In Fig B**

## Inserting the Battery

Insert the battery, making sure that battery contacts touch the gold contacts in the bottom right corner, then replace the battery cover and press down until it clicks into place. If the battery is in the correct orientation, the '+' and '-' symbols will be facing you in the bottom right corner.

The mobile will need 10 hours charging before first use. Charge daily - 8 hours or less depending on how much charge is left.

When the phone is powered on, the battery icon will flash to show that it is charging and will show as full when the battery is fully charged. If the phone is powered off 'charging' or 'charge complete' will appear on the screen.

# USING THE PHONE

To turn the phone on, hold down the **Power Button** (red button) for 5 seconds until the screen comes on. In standby mode, the phone is on but isn't running any applications such as calling, SMS messaging, etc. You can tell the phone is in standby mode because the screen is on.

## Using the Menu

Press **Left menu key** (top left of the keypad with a solid line) to open the menu.

- Press Up/Down arrow keys to scroll through the menu.
- Press Left menu key to open a menu item.
- To return to standby mode, press Power Button or close the phone.

## Dual-function Keys

Some keys have additional functions if they are pressed and held down for a few seconds.

- **Number 1 key:** Listen to voicemail.
- **# key:** Switch between normal sound, silent mode and vibrate mode.
- **Number 0 key:** Hold for a few seconds to switch torch on or off.

## Saving Contacts to Phonebook

Contacts can be accessed by pressing the **right menu key** at the top right of the key pad with the solid line.

1. Press **Options** —▶ **New** —▶ **OK** (the circular button between the arrow keys).
2. Choose between Phone or SIM to store your contact. **press OK**
3. To input contacts name, use **down arrow key** to move the high light **Name**, then press **Edit**. Press **OK** when finished.
4. To input phone number, press the **down arrow button** to move the highlight to Mobile. press edit, press **OK** when finish.

## Changing the Ringtone

Press the **Left Menu key** in standby Mode

Scroll to and select **Settings**

1. Select **Profiles**
2. Select **Normal** (or your current Profile)
3. Select **Option** (left menu key) then select Settings and press OK (left menu key)
4. Scroll to and select **Ring Settings** —▶ **SIM1/SIM2 Call ring** —▶ **Select**  
You can then change your ring tone for each SIM and for receiving messages.
5. Choose ringtone from **Fixed ringtones** (comes with the phone) or **More ringtones** (download from your computer to phone memory or optional Micro SD card).
6. Press **OK** —▶ **Done** to return to the previous menu.

## Setting up the SOS function

1. Press the **Left Menu key** (on keypad).
2. Scroll to and select **Settings**.
3. Select **SOS setting** —▶ **OK** —▶ **Options** (Left menu key) (Ensure **Active** is ticked to activate the SOS function). **Back**
4. Select **No.1**. (if no numbers have been previously programmed it will be empty).
5. **Press the Middle button to Edit**, and then enter your SOS contact number.
6. Press **OK** and then **Options** and scroll to **Save Number** and press **OK**.
7. Repeat steps 5-7 to add up to 5 SOS contacts. When activated, the phone will dial the phone numbers in order of entry.
8. You can also add a standard SOS text message to send to your contacts.  
Select **Options** —▶ **Edit message** —▶ **OK**.
9. The default SMS is "SOS, Please call me!!" To change this, press the **right menu key** to clear the message and Edit your own words. Press **OK** after done.
10. To activate **SOS button**, press **SOS button on back of phone and hold for 3 seconds**.  
A alarm will sound on your phone and a text message/call will be sent to the specified numbers.

**Please note:** SOS message will only be sent to mobile phone numbers in the SOS list. SOS calls need to be accepted by the receiver within a specific timeframe. If you are programming a phone number that has an automatic answering feature please test before use.

## Setting up the M1/M2 speed dial

**Please note:** A valid SIM card needs to be installed in order to set up the Speed dial function

1. Press **Menu** button (on keypad).
2. Scroll to and select **Settings**.
3. Scroll to and select **Speed dial**.
4. Select **Option** —▶ **Edit** —▶ **Input number** —▶ **OK**.
5. Repeat steps **4** to add up M2 and other Speed dial.

## Vibrate Mode

When in standby mode, the phone can be changed to silent mode **by pressing and holding the hash (#) key for three seconds**. Repeating this step will switch to vibrate mode. Press for another 3 seconds and it returns to normal ring mode. To control the volume from standby mode, press the up-arrow key once, then use the arrow keys to adjust the volume.

# USING THE PHONE FUNCTIONS

## Using the Radio

Press the **Left Menu key** in standby mode

Scroll to and select **MULTIMEDIA**

1. Select **Radio** —▶ **OK** to open the radio.
2. To play or pause the radio, press the **OK** button.
